Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Claim 1, the prior art does not teach or suggest a lighting apparatus with a plurality of surface mounted light emitting diodes (LEDs) and a plurality of convex lens each of which corresponds to each one of the plurality of LEDs where the optical axis of each lens does not coincide with the axis of the corresponding LED.

Regarding Claim 2, the prior art does not teach or suggest a plurality of convex lens each of which covers the light extraction side of a corresponding one of the plurality of LEDs where the lines to connect between the centers of the plurality of LEDs form a virtual convex polygon and the lens optical axis is located on a plane that is defined by the optical axis of the corresponding LED and a straight line perpendicular to the circuit board and passing through the gravity point of the virtual convex polygon and the passing through the straight line.

Regarding Claim 3, the prior art does not teach or suggest a lighting apparatus with a plurality of surface mounted light emitting diodes (LEDs) and a plurality of convex lens each of which corresponds to each one of the plurality of LEDs where the

lens optical axis is not parallel to and intersects with a straight line perpendicular to the circuit board and passing through the gravity point of the virtual convex polygon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
